

SHORT GUIDANCE TO THE MONTHLY LIST OF DETENTIONS OF THE PARIS MOU

• INFORMATION IN THE LIST

The monthly list of detentions of the Paris MOU contains information about ships which were detained in the Paris MOU region during the month under review.

An alphabetical index on ship's name and an index on IMO number are provided with the list.

The following information is listed for each ship: name, IMO number, flag, ship type, gross tonnage (GT), year of build, RO related deficiencies ('Yes' or 'No'), port of detention, date of release from detention, duration of detention in days, total number of deficiencies, reason(s) for detention, issuing authority, ISM Company.

Some of these items require an explanation:

RO related deficiencies: a 'Yes' in this column indicates that one or more of the deficiencies mentioned under 'Reasons for detention' are the responsibility of the Recognized Organization which has issued the relevant certificate(s). **This is not necessarily the Recognized Organization mentioned in the list (see below)!**

Port and date of release from detention: details of detentions are entered in the information system of the Paris MOU after the ship has been released. Therefore, the details on a detention of a ship detained in September but released in October are only available in October.

Recognized Organization: the Recognized Organization mentioned is not necessarily the party issuing the certificates relevant for all deficiencies which were reasons for detention.

'Ship allowed to sail to nearest repair yard for repairs': in general, a ship is not released from detention before all necessary repairs have been made. However, sometimes it is not possible to repair all defects at the place of detention. Therefore, a detained ship may be allowed to sail to a repair yard without really being released from detention. In the list those cases are marked by the sentence 'Ship allowed to sail to nearest repair yard for repairs'.

• DIFFERENCE WITH FORMER DETENTION LIST

Due to technical issues this list is not based on release date but on detention date. As a result ships with long detentions are not shown on this list. For the time being these can be found in the current detention list on the Paris MoU website. http://www.parismou.org/Inspection_efforts/Detentions/Current_detentions/. Also the number of times a ship has been detained during a 24 month period does not appear in this list.

Please note that this list is only a temporary solution until **all adjustments concerning the new database, and coding system are implemented**. We expect to publish the list based on release date and with the nr. of detentions in September 2011.

• DISCLAIMER

The factual information in this list pertains to the situation at the time of the detention(s) which took place during the month under review.

Before this period some ships may have had a different name, flag, call sign and/or recognized organization. Although the utmost accuracy has been observed in compiling data for this list, all responsibility is waived with regard to any inaccuracies.
